WATER BOARDS' STRATEGIC PLAN REGIONAL PUBLIC WORKSHOP JUNE 13, 2007, 1–4 P.M.

The State and Regional Water Boards are in the process of updating their Strategic Plan. Interested members of the public are invited to share their views and suggestions at a regional outreach session, hosted by the San Francisco Bay Regional Water Quality Control Board on **June 13, 2007**, from 1–4 p.m. at the State Building in Oakland.

All of the nine regional Water Boards are sponsoring outreach sessions for the public. At these forums, members of the public are invited to contribute local perspectives on input received at statewide summits held recently in Sacramento. The workshop format will include facilitated, interactive discussions in small groups where input will be recorded and reported out to the entire session.

The Water Boards will use information received at the statewide summits and regional outreach sessions to prepare a draft Strategic Plan to be considered for adoption in the summer of 2007. An implementation plan will be developed and considered in winter 2007-2008.

We welcome your participation in our planning process and encourage you to contribute your ideas and insights on the direction the Water Boards should pursue over the next five years. For those unable to attend the workshop, the Water Board will provide online opportunities to contribute ideas and suggestions later in June.
